

Company Profile

About Us

B A FAB AND FORGE PRIVATE LIMITED is a leading provider of high-quality metal and aluminum fabrication solutions, serving , commercial, and industrial sectors. With a commitment to precision engineering and innovative design, we deliver durable and aesthetically pleasing products tailored to meet the unique needs of our clients. We are an **ISO 9001:2015 CERTIFIED company**, ensuring the highest standards of quality and reliability in all our offerings

Mission

Our mission at B A FAB AND FORGE PRIVATE LIMITED is to provide exceptional metal fabrication solutions that exceed industry standards and empower our clients to bring their visions to life.

Through innovation, precision, and a commitment to quality, we aim to deliver reliable products and services that enhance the success of our partners across diverse industries.

Vision

To be a leading force in the metal fabrication industry, recognized for our craftsmanship, integrity, and dedication to advancing technology. We strive to set new standards in quality and service, building lasting relationships and fostering a culture of excellence in everything we do.

Managing Director

At B A FAB AND FORGE PRIVATE LIMITED , our journey since 1985 has been one of transformation—from a humble 15×15 room with second-hand machines to a 45,000 sq. ft. state-of-the-art facility powered by over 350 skilled professionals. This growth is a testament to our unwavering commitment to quality, innovation, and customer satisfaction.

As a Managing Director , I take pride in leading a company built on integrity, dedication, and a passion for excellence. Every project we undertake is an opportunity to deliver solutions that not only meet but exceed expectations, fostering trust and long-lasting partnerships.

At BA Fabricators, we embrace change and innovation, investing in advanced technologies and sustainable practices to stay ahead in an evolving industry. Together with our valued clients and talented team, we are shaping a future defined by excellence, reliability, and shared success.
